LEADERS, TODAY.**

WHAT IS INSPIRED LEADERSHIP?

Most businesses today are looking to find high impact, cost effective ways to develop their people without them being out of the workplace for long periods of time. Inspired Leadership meets this need whilst delivering long term sustainable results for individuals and the organisation as a whole.

HOW DOES INSPIRED LEADERSHIP WORK?

Inspired Leadership is about creating sustainable behaviour change, so that the leaders in organisations step up and stand out. An either/or training program has limited impact. And learners have no accountability. We decided to fix that.

We built a leadership development approach that takes all the good parts of how we learn, the available tools & constraints and blended them together. We built a product. And then we built a business. A business in a box.

HOW CAN YOU BENEFIT?

There are other products out there. Loads of them. In fact you are probably already licensed on a few tools or products. What makes you use one over the next? Well... the need of the client! **YES and** the experience you have working with the tool or product: admin glitches, not available to help, random price increases, complicated contracts, disorganised etc. We thought we would fix that too.

The Inspired Leadership "Business in a Box" is just that: a sales tool kit & a facilitator tool kit - with digital content that you license per learner.

Deciding to partner with Inspired Leadership means you become part of a community of Inspired Leaders who can see how the collaborative economy can be a game changer, not just for those who are into AI and robotics, but even for us in the business of people.

Join in. Let's build something special.

OUR STRATEGIC OBJECTIVE

1. Design blended learning experiences that are globally accessible, personal and fun.
2. Create a collaborative platform for progressive learning and leadership practitioners to build and share innovative and best of breed learning experiences for mutual benefit.

OUR VALUES

CONNECTED

Staying digitally connected is essential, but building strong human connections through the face to face sessions & learning cohorts means we have the best of both worlds.

COMMITTED

Leadership skills are not developed overnight. We know it takes sustained and intentional effort. We partner with you & the participants to walk the journey.

COURAGEOUS

We challenge ourselves, our clients and our learners to be courageous. It takes courage to step out of a comfort zone and try something new. We do it, will you?
